Testimonials

The Theology of the Body exists to promote the revolutionary teaching of Pope John Paul II on the divine meaning of the human body and human sexuality.

- "This should have been taught in high school. I would have changed my ways then if I would have heard it put that way."
- "This can radically change the way you look at the world for the rest of your life."
- "A real revelation! All Catholics – the whole world – needs to hear this."
